B2E Supply Chain Services
Offering

SUPPLY CHAIN SERVICES

Helping businesses to deliver innovative
supply chain solutions and transformation
to enable future business success

Lead Principal: Mark Fogerty

SUPPLY CHAIN SERVICES OVERVIEW

Supply Chain planning and execution is at the heart of business performance and the customer experience.

B2E Consulting has a wealth of Supply Chain expertise with Blue Chip companies on improvement change projects and transformational programmes. Our consultants have experience right across the Supply Chain from rapid opportunity assessment, through modelling and detailed design to implementation and delivering ongoing improvements.

TYPICAL CHALLENGES

The breadth of Supply Chain and Logistics challenges continues to grow, placing greater demands on practitioners and teams, in a sector already suffering from skill shortages.

Today's supply chain challenges include;

- Managing capacity, year-on-year cost reduction, risk and resilience
- Availability of technical, BAU, analytical & change skills
- Balancing innovation vs executing the basics
- A drive for innovation vs pragmatism
- Excellence today vs strategy & change tomorrow
- Delivering robust solutions & analysis vs pace
- Understanding appropriate application of automation and technology

UNIQUE SOLUTIONS

B2E Consulting combines analytical, modelling and solutions design, with operational pragmatism and ability to implement and deliver change. The result is solutions that work.

- Improvement identification across cost, service, working capital and systems
- Business Case development
- Supply chain operating models
- Analysis, network, routing and capacity modelling
- Warehouse layout, flow and equipment selection
- Automation and associated process & organisation
- Logistics systems design & implementation
- 3PL engagement and management
- Network, parcel & pallet partners
- Specification, procurement & contracting of partners
- Business Case and benefits management
- Cost to Serve analysis
- Logistics organisational Development
- Change planning, governance & delivery
- Assurance & Exec-level Supply Chain NED

Mark Fogerty is the B2E Consulting Principal leading the Supply Chain offering. Mark has a rare blend of consulting, operations & implementation experience, analytical ability, logistics solutions and change management. Mark has vast logistics experience and proven track record in identifying and delivering structured improvements and transformational change across sectors, across the Supply Chain, and from work in traditional and unique environments. He provides objective insights and solutions with a hands-on approach and pragmatism. He brings pace, structure and governance with the organisational development to ensure a lasting legacy.

Service Offerings at B2E Consulting are supported by our community of over 20,000 high calibre, expert consultants, many with Supply Chain experience.

Our scale means that we are able to build teams of genuine Supply Chain experts, usually with more than 10 years relevant experience to help support client initiatives. Ensuring we fully understand client's goals, content and context. We expect to work with a client team to ensure engagement in the design and delivery, and also build a lasting legacy of continuous improvement.
