3

BLOCKCHAIN

Blockchain is a technology to speed up business processes and provide assurance across organisation boundaries. Its deployment is ideal when your organisation works across boundaries to deliver an end-to-end business process. B2E can help your blockchain design to allow a set of business rules to be distributed to multiple parties without costly infrastructure and allow a fully secured and auditable process.

4

VALUE FROM TECHNOLOGY

Information Technology is arguably now the main determinant of success, and the key differentiator, in almost every industry. Business success depends on getting it right, and the capability of the IT function is critical. B2E work with businesses to review their IT capabilities – people, process and technology – and ensure they are set up for success.

Louis Hall

5

IT SOURCING

B2E's approach to IT sourcing seeks to ensure that service providers' specialist capabilities are optimised to achieve the organisation goals. This requires deep experience across the full sourcing lifecycle. Working with the retained organisation, we strive to set clear expectations, minimise disruption during service transitions and establish governance that exploits each service provider's contribution.

OPEN BANKING & FINTECH SERVICES OVERVIEW

2018 saw the introduction of Payment Services Directive 2 (PSD2) in the UK, which is often also referred to as "Open Banking". This allows consumers to choose to share bank information with 3rd parties and avoids the need to use a credit/debit card or PayPal. Having been involved in a number of FinTechs and start-ups, B2E Consulting is well placed to advise clients on how to identify, explore and exploit the potential business opportunities. We even have our own inhouse FinTech in the Benefits Administration space – our sister company B2E Technologies.

PROCESS SERVICE OFFERINGS

4

INTELLIGENT AUTOMATION

Whether you are new to automation or already on your way, B2E an excellent partner for the journey. We have the experience and know-how in automation tools like UiPath, PowerShell and Machine Learning. We differ from our competitors in that we're not hung up on using a particular tool for a particular job - we look at clients' automation needs and supply a solution that works.

Ravi Veerasubramanian

5

STRATEGIC SOURCING

Outsourcing can deliver clients' tangible benefits whilst allowing the outsourced service provider to make profit. The trend in the last two decades is for poorly scoped and aggressively negotiated deals that are not agile nor adaptable leaving managed service providers (MSPs) with the binary choice of delivering a quality service or making a profit. B2E can help clients' use, outsourcing to gain strategic and competitive advantage.

4

ORGANISATION ARCHITECTURE

Today's 'Fourth Industrial Revolution' is an era of digital disruption, with added political, economic, social, regulatory and environmental uncertainty. All business sectors are being affected by digitalisation, uncertainty and the constant need to 'transform', B2E believe that transformation efforts require organisational and leadership agility. Agility is the underlying adaptive capacity of the organisation and its leadership.

STRATEGY SERVICE OFFERINGS

Andrew Turner

1

CORPORATE STRATEGY

The Strategic framework is at the core of all successful companies. When well executed, it acts as the touchstone for decision making and binds individuals into high performing teams and those teams into an aligned and purposeful entity. Too often, Mission, Vision and Strategy are seen as necessary tools for the board and meaningless by the employees. B2E has a wealth of Strategy expertise from working many on important and transformational programmes.

Terrence McGrane

2

INTERNAL AUDIT TRANSFORMATION

Many internal audit functions have grown organically without an architectural blueprint in place to guide the construction of a relevant and coordinated function. This should align both Risk Management and Assurance efforts to benefit the regulatory protection of Directors and Senior Executives. B2E consultants are highly experienced in synchronising the needs of people, processes and technology to produce both value and assurance.

Alex McCallum

3

DATA STRATEGY AND ANALYTICS

Business Intelligence and Analytics are at the heart of understanding current Business Performance, determining future activity. B2E's offering brings rich, practical experience putting insight at the heart of Business Strategy and emphasises the importance of Change Management to act on this. Our consultants bring experience in small and big data architecture.

Richard Eteson

4

MARKETING

Marketing remains essential to the development of any business yet the challenge of creating a relevant marketing strategy can often seem elusive. Our marketing experts at B2E have experience from both the client and agency side in helping to identify the right marketing mix for organisations as they seek to gain a greater share of voice within their sphere of interest.

5

CUSTOMER AND BRAND PROPOSITION TRANSFORMATION

Customer and Brand Proposition development and delivery is at the heart of business performance. B2E consultants have experience in both B2C and B2B, with expertise ranging from customer insight to innovation to proposition development to go to market planning and execution to customer experience.

PROGRAMME DELIVERY SERVICE OFFERINGS

Chris Wilton

1

PROGRAMME MANAGEMENT

Programme Management is a significant part B2E's business with expertise gained over many years of working with clients on their most important and dynamic programmes. B2E consultants have experience across a vast number of delivery types and a multitude of different sectors, from technical change programmes, through to business and organisational transformations.

2

TROUBLESHOOTING

In any successful trouble-shooting venture, a sufficient grasp of the detail to fully get to grips with the issues is vital as is clarity on the agenda at board level to expedite focus on what matters the most. B2E consultants are senior practitioners who delight in the direct challenge of fixing the problem. They are hands on, working directly with clients to bring their extensive experience to assist with diagnosis and accelerate remediation.

3

INNOVATION AND AGILITY

Increased complexity drives higher uncertainty and accelerates the rate of change. The need for radical change and reinvention is top of mind for many executives. Some are finding that organic models borrowed from biology – embodying ideas such as holistic purpose, self-management and evolutionary change – are often very helpful. This service offering from B2E employs these organic models to foster innovation and agility at scale.
