## PROCUREMENT

Procurement is a strategic function working to improve an organisation's profitability. Successful implementation can help to streamline processes, reduce raw material prices and costs, and identify better sources of supply of both goods and services. B2E can help organisations meet their strategic roles including profit improvement, achieving savings targets, performance improvements and risk mitigation.

## SUPPLY CHAIN

Supply Chain planning and execution is at the heart of the business performance and the customer experience. B2E has a wealth of Supply Chain expertise with clients on improvement change projects and transformational programmes. We have experience ranging from rapid opportunity assessment, through modelling and detailed design to implementation and delivering ongoing improvements.

## COMMERCIALISING FINANCE

To achieve high performance in a challenging global market, companies more and more are looking to their finance function for commercial insights to support business success. B2E has a wealth of commercial finance expertise gained over many years of working with blue chip companies and public sector organisations on important and transformational programmes.

## INTELLIGENT AUTOMATION

Whether you are new to automation or already on your way, B2E an excellent partner for the journey. We have the experience and know-how in automation tools like UiPath, PowerShell and Machine Learning. We differ from our competitors in that we're not hung up on using a particular tool for a particular job - we look at clients' automation needs and supply a solution that works.

## ORGANISATION DESIGN

B2E works with our clients to develop design solutions that resolve performance challenges - from organisation-wide scale, through to optimising the performance of specific functions and operating divisions to meet changing market requirements. Our goal is to help ensure that the organisation is aligned with its strategy and key objectives.
